After the latter's death he continued the partnership with his wife, who was a lover in 1916. In 1921 Mr. Kilgore retired and located in Norway where he purchased the former Henry J. Bangs residence on Main street. The past few years he has taken an active interest in the W. F. Knight Co. on Cottage street, dealers in Studebaker automobiles.

Church Bell for Norway Center
More definite information concerning the new bell for the First Congregational Church at Norway Center is of local interest.

The bell was given to the church by the children of the late William C. and Amanda Noble as a memorial. The parish will join with the Hobbs family in the dedication exercises to be held sometime in May.

This church was incorporated in March 1899 and its first settled pastor was Noah Cressy, who had preached in Norway as an ordained minister since 1897. Congregationalism started with the first settlers and many itinerant preachers and missionaries preached at or near Norway Center several years before this house of worship was completed.

Jeremiah Hobbs, grandfather of the children who have given the bell, was one of the members to sign a petition to the Massachusetts General Court for an act of incorporation.

Abigail Whitman Chapter

Abigail Whitman Chapter members entertain the chapter at their homes, meetings are held the first Wednesday evening of each month from September to June inclusive. At the beginning of our year, it was suggested by the Regent that the program committee ask some of the absent members to supply one evening's entertainment, which met with good success and we have been furnished with some excellent programs. Two of our members from California wrote a club letter, furnished a short historical sketch of the place of their residence, illustrated by photo post cards, and a box of packed fruit to be sampled and inspected. We have had one interesting paper on "The Glories of the Pharoahs," and others to follow. Past Regent Mrs. Mary Smith entertained us on Oct. 6 at her cottage for our Field Day.

Feb. 6th we had a banquet at the home of the Regent. The hostess always serves refreshments and if time permits we usually have a social hour. Besides meeting all our State dues, we have located 1084 Regiment toward markers in France, gave \$3 to Martha Berry School, gave \$2 to Harding Memorial Fund, gave \$2 to Community Xmas. Have placed markers at 24 graves in four different cemeteries.

On March 1st, for Memorial Day, assisted Harry Rust W. R. C. on dinner by donating food and work also accompany them in parade. Have lost our oldest member by death.

Smelt Law
When the 1923 law book was issued, it appeared that the Legislative act of 1923, Chap. 132, of the Public Laws, affected the taking of smelts in inland as well as tidal waters.

This matter has been under careful consideration and it has been ruled that our old law, Section 26, Chap. 219, Public Laws of 1917, on pages 55 and 56 of the 1923 law book, will govern the situation, that is, it is not considered, after careful consideration, that the new 1923 law affects the inland waters of the State so far as the taking of smelts is concerned.

A Daughter of the Crescent
An appreciative audience gathered at the Norway Opera House Thursday evening, when the pleasing operetta "A Daughter of the Crescent" was presented for the benefit of Norway High School piano fund.

An orchestra of nine pieces directed by Mrs. Mary McLean, alone with Lucy Witt at the piano led the musical numbers and carried the operetta along with snap and precision.

Before the first curtain, Donald B. Partridge, a member of the school committee, read the story and gave a resume to prepare the large audience for the operetta or interpretation of many allegorical scenes. He also introduced the principal characters who appeared for an instant and acknowledged the applause.

The story was played in several scenes, featuring woodland and forest. Costumes typical of the Moors with colorful effects, made beautiful pictures, well acted and nicely sung. The pantomimes and dances were particularly pleasing, and the choruses were well received.

The success of the operetta is due largely to Mrs. Mary Stone who has worked many weeks as musical director and general manager. She was ably assisted by Harold A. Anderson as theatrical director and Edward Bunnell who was in charge of making up. The entertainment was a big undertaking but passed as one of the best musical programs presented here in years.

OUT OF THE GLOOM

Many a Gloomy Countenance in Norway

Now Lightens With Happiness

A bad back makes you gloomy.
Can't be happy with continued back-ache.

The aches and pains of a bad back are frequently due to weak kidneys.
Doan's Pills are recommended for weak kidneys. Ask your neighbor.
So Norway citizens testify.

Mrs. Orville Palmer, Lower Main St., Norway, says: "I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes, I was all right, so I gladly recommend Doan's."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Palmer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Its Automatic Features Make Easier Plowing.

Merely by a push of the foot you can control the John Deere-Syracuse Two-Way Plow so that the bottoms can do a good job of plowing on hillsides, on level land, in nooks and corners of irregular fields, around stones and other obstructions.

JOHN DEERE Syracuse Two-Way Plow Built in the East for the East

The John Deere-Syracuse Two-Way Plow is equipped with one right and one left-hand bottom. Each bottom may be used alternately, and the plow operated back and forth across the field, throwing the soil all one way.

With this plow you can do away with dead furrows and back ridges, where these are not desired.

The Syracuse Two-Way is practically self-operating. The next time you are in town stop in and inspect it. Get on the seat. Shift the levers—notice particularly the patented Auto Foot Frame Shift, regulating width of furrow, controlled by a slight pressure on the foot levers. The Clevis Shift and the Horse Lift are both automatic.

Syracuse Features
Syracuse bottoms—the bottoms that always fit perfectly, and do a good job of plowing.
Made in different styles to meet every soil condition.
Wheels set wide apart—better than narrow tread for hillside work.

GET A "CLOSE-UP" OF OUR SPRING DISPLAY

It's very much worth while; you will enjoy looking. We will just as much enjoy showing you because we have every confidence in our merchandise and the large variety of styles appeal to all.

There are more style changes this season than for years. Some of the changes are real radical.

The new idea of looser lines appeals to the man who enjoys comfort. Let us show you the new English models.

Many prefer the closer fitting models and they are still good style. Plenty of these to show.

We find a large part of the younger fellows prefer the Sport models. Coats with belts of some description. Lots of suits just received made that way.

There is many a man who wants an extra pair of trousers. We have suits made with them. Some suits with two pair of regular trousers. Others with the extra pair a Golf or Knicker. Out-door life demands this type of garment.

THE PINE BLISTER RUST AND THE CHESTNUT BLIGHT

"How is it you can protect the white pine from the blister rust but cannot protect the chestnut tree from the chestnut blight?" asked an interested timber owner. "Why that's simple," said the expert. "The blister rust cannot spread direct from pine to pine. It must first live for a time on other host plants, called Ribes by the scientists, but which are nothing more than plain, ordinary currant and gooseberry bushes. Destroy these bushes both wild and cultivated, and the blister rust cannot spread to pine. Under ordinary forest conditions commercial damage is prevented if all the bushes within 900 feet of the pine are destroyed."

Scotot, Pa.—"I never felt like work-
ing, and when I would try to do any
work standing on my
feet, I would just
drag around all day
long. At times I
would have terrible
pains and would be
in bed three or four
days. I was in this
condition about a
year when I saw
Lydia E. Pinkham's
Vegetable Compound
advertised in
the papers. I had
heard different women say it was good
for women's troubles, and my aunt
thought it would help me as it had
helped her. So I took the Vegetable
Compound and it brought things right,
and I was in good shape before I became
a mother again. I believe it helps at
birth, too, as with both my other babies
I suffered a great deal more than with
this one. I thank you a thousand times
for the good your medicine has done me.
It has surely made our home a happy
one."—Mrs. ROBERT PRICE, Scotot,

In a recent country-wide canvass of
purchasers of Lydia E. Pinkham's Vege-

report they were benefited by its use.
